Welcome to Mentop Hair – your partner for individual hair replacement solutions

For years, Mentop has stood for quality, individuality, and craftsmanship. As an owner-managed company, we create custom-made hair solutions from untreated European real hair, continuing the tradition as Mentop Hair GmbH since 2020.

Our goal: every hairpiece should be as unique as the person wearing it — whether woman or man.

Our promise: individual standard instead of compromises

We understand the challenges faced by hair replacement specialists: standard solutions are often not ideal, yet custom-made ones seem complicated to many. That's exactly where we come in.

With our many years of experience and flexible production methods, we combine materials as needed to create perfect bases that can be easily further processed. Whether toupees, wigs, or hairpieces – with us, (almost) anything is possible.

Michaela & Sascha Rösner

Advantages of untreated European real hair

- ✓ Most natural look and feel
- ✓ Perfect match to hair structure and color
- ✓ Durable and easy to maintain
- ✓ No silicone coating – authentic wearing experience

Your vision – our realization

Every person is unique – and their hair replacement should be too. That's why we focus on the highest level of individuality in production. Whether hair length, density, color, highlights, gray percentage, knotting direction, size, or attachment method – you define the details, we bring them to life.

Our wide range of materials allows us to create the perfect balance between comfort, natural appearance, and durability. From monofilament for a natural parting to robust Trevira gauze – everything can be combined flexibly. This results in long-lasting, discreet, and custom-made hair solutions that require no compromises.

Why custom-made solutions?

Isn't that much more expensive than standard products?

No! A custom-made piece is often more affordable than you might think – especially when considering the perfect fit and durability.

Does a custom-made piece really save time?

Yes! Instead of spending time searching for the next best standard solution, you receive the perfect product for your clients right away.

Can I combine custom-made pieces with standard solutions?

Absolutely! Materials can be adjusted flexibly, allowing you to maintain your usual working methods while achieving a better final result.

With Mentop Hair, you have the freedom to fully apply your expertise – for perfectly tailored hair solutions that impress!

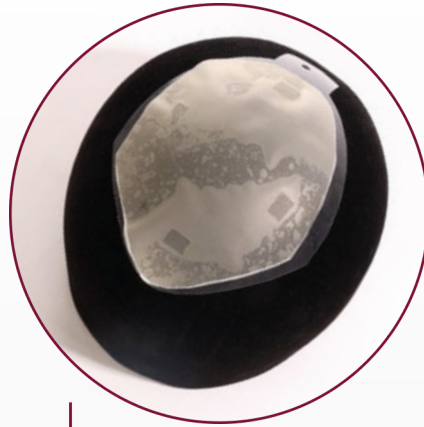

Our bases can be individually customized:

From the well-known materials, you can create the optimal product — either individually or in combination.

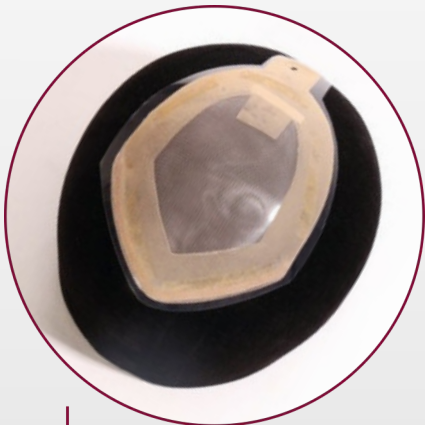

MT400 / MT700

is a mesh made of durable Trevira gauze. It provides stability and longevity.

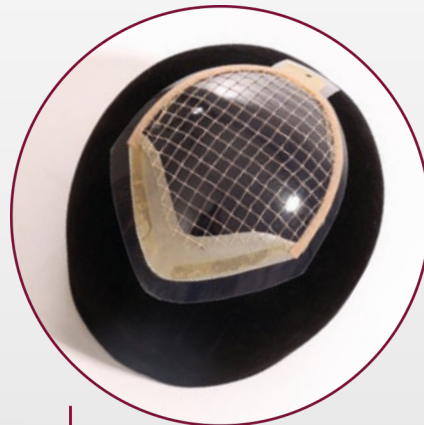

MT600

is a durable full NPU foil designed for complete bonding.

MT800

is a fine monofilament for a natural look of the hair system..

MT900

is a mesh structure that provides a light base for natural integration.

All bases can be customized with additional details. For example, the spacing on the MT400, MT700, and MT900 can vary between 3–10 mm or be adjusted entirely to your preferences. Likewise, the thickness and elasticity of the MT600 can be adapted as needed. Once again, our principle applies: we inspire your needs and your design..

Shiva – the wig with limitless possibilities

Shiva – perfection in two versions

Our Shiva wig combines top quality with individual customization options – the perfect foundation for hair replacement specialists to create the ideal hairstyle for every client.

Perfect fit and natural appearance

Our men's toupees offer the ideal combination of comfort, durability, and natural aesthetics. Three different models with individual bases cover a variety of needs:

Leon

Hand-tied monofilament with underknotting and PU edge for stable hold and a natural look. Size approx. 19 x 14 cm

Louis

Mono top with large PU edge ("cut to size"), optionally with lace front. Ideal for flexible adjustment. Size approx. 25 x 19 cm.

Robin

Comfortable full foil, especially thin and almost invisible on the scalp. Size approx. 21 x 25 cm.

Durability tailored to individual lifestyle

All models are made from high-quality Indo hair with a natural density of 100%. Durability depends on the wearer's activity level and lifestyle.

Thanks to a wide range of colors and flexible design options, there's a perfect match for every client.

Our men's toupees offer a stylish and natural hair enhancement – for a confident appearance in every situation.

Mentop Hair – the ultimate individuality

Combining proven quality with additional benefits

Our standard models such as Shiva, Vicky, Sandra, Yvonne, and the men's toupees already cover most of the needs in a hair replacement studio. But what if the perfect hair replacement needs to be something even more specific? No problem! Our custom-made solutions can be adapted and personalized in any way.

You need the base of Vicky in the size of Sandra with the hair quality of Yvonne – and all that in an ashy men's shade? Or an exact custom-made piece based on an individual mold? All of that is possible.

No finished hairstyles – but the perfect foundation

Our products are not finished hairstyles – they are high-quality bases that are individually customized by hair replacement specialists. Each hairpiece requires professional processing to perfectly meet the personal style and needs of the wearer.

Why individuality is essential

- ✓ Custom-made pieces provide the perfect solution for every client
- ✓ Longer delivery times are justified by the exclusive quality
- ✓ No compromises – but a unique hair replacement that blends in perfectly
- ✓ Full hair means joy of life – offer your clients more than just a product: offer them confidence!

With Mentop Hair, you get the flexibility you need to offer your clients tailor-made solutions – for hair replacement that not only fits but truly impresses.

We look forward to seeing you!
